Business Model

Leveraging our interconnected network of carriers

Product & Service Cross-Selling

Our interconnected network across the globe facilitates the cross-selling of over 20 products and services, easing market penetration and expanding our reach.

Subscription-Based Models

Our subscription-based pricing models translate into having 70% of our revenues being recurring payments, allowing for sustainable cashflow and customer loyalty.

International Markets

Our networks, products, and services have been designed to be able to seamlessly integrate with any network carrier around the world, further facilitating our expansion into international markets

High profile clients

Acquisition

Acquisition Plan

Acquisition Plan

Add carrier billing agreements.

Geographic, network, and product diversification.

Economies of scale.

Become a 'MUST GO TO' international player for carrier billing.

Acquisition Criteria

Key geographical locations

Strong partnerships with telecom carriers

Profitable with recurring revenues

Have intellectual and data-generating quality products with cross-selling opportunities

Growth Opportunities

Direct Carrier Billing

Latin American Market

Carrier billing holds a **21% market share** for all payment methods.

Only **32% of people** in Brazil and **17%** in Mexico have a credit card.

Carrier billing is the **perfect alternative** to traditional payments in Latin America.

SMS

Over 155 million people already own a smartphone. It's estimated to **double by 2019**.

Mobile penetration across Latin America is at **89%**

Global Market

Revenues of \$16.6 billion in 2015 expected to grow to **\$25.3 billion in 2020**

Annual sales from DCB are 12-16 Billion, projected to **grow by 40% in 2019**

28% of people who abandon an online purchase do so because the website **does not offer** their preferred method of payment

SMS has a **98% open rate**, compared to the 22% of email

90% of all text messages are read within **3 minutes**

Contemplated Acquisitions

Founded in 2005 and based in Buenos Aires (Argentina), the Company offers B2C and B2B premium mobile phone services.

Geographic Operations

Operations in Colombia, Uruguay and Central America

Carrier billing connections

9 direct and 16 indirect carrier billing links in 6 countries and connected to more than 470 million mobiles across the continent

1.2 million subscribers

Mobile phone solutions include text messaging, mobile marketing, entertainment, learning, and mega contests;

Founded in 2011, a web and mobile development services company whose mission is to provide innovative and efficient business solutions.

Local & Global Clienteles

Serving over 65 clients around the world with world-class development

Outstanding Project Management

AppWapp's development team completed 82 projects in 2017, surpassing their own goals as well as those of competitors.

Experienced Team

AppWapp's team and management have over 25 years of development experience for products and services in the telecommunications industry.

Featured Clients

Unified Payment Solutions

Providing an all-inclusive billing and payment solution that allows companies and merchants of all size the ability to offer their customers various reliable and secure payment methods. Such methods including credit card, voice, SMS, Interac, and cryptocurrencies, with more methods being regularly added.

Voting

Our full-featured voting system is secure, rigorous, dependable, and verifiable, allowing for the best user-experience for both participants and organizers. Supporting phone, SMS, and online votes, our solution can be tailored for multiple uses, such as political elections, trade union elections, TV shows, radio or webcast.

Donations

VoxTel provides a philanthropic donation service specifically designed for Canadian Registered Charities seeking funding from the general public for their charitable activities. The service allows for an all-in-one solution with various methods of contribution, including credit cards, landlines, and mobile phones.

Customized Telecom Solutions

Voxtel also offers its clients with several customized solutions to meet all their telecommunication needs. Such customized solutions include interactive communications for broadcasters, call-tracking and geo-matching for marketing purposes, and toll-free inbound and outbound numbers.

VuduMobile was born in 2012 from a passion : communication. Its mission is to offer ready-to-use communication services to help businesses improve their performance. With its solid and flexible cloud-based web application, VuduMobile's services are easy to implement, allowing organizations to develop a more personalized relationship with their clients.
